□ Content Management System Website

Out of the Blue Clothing (In Progress)

□ Content Management System Website and Ecommerce

### WORK EXPERIENCE:

The Bose Corporation: 2005-2007

My job title at Bose was "Demonstration Specialist". My purpose at Bose was to listen to customers needs and recommend a product that may be right for their needs. In my 3 years working at Bose I was able to sell hundreds of thousands of dollars worth of products.

Hotopp Associates:

I interned at Hotopp Associates during the summer of 2008, full-time paid. Hotopp specializes in stage design as well as installation design.

**AWARDS:**

Freshman Year SVA:

I was awarded second place in a grade wide drawing competition that was judged by a curator from MOMA. Along with second place, I was awarded a scholarship.

Sophomore Year SVA:

At the sophomore portfolio review my work was placed in the "top percentile exemplary work" category. The sophomore portfolio review is required by every student and is graded by the head of the Graphic Design Department along with many other teachers.

Junior Year SVA:

I was invited to an honors program at SVA.

**ABOUT ME:**

I commute on my bicycle everyday and love a good challenge. I am going to start getting into aerial photography and video over the summer with an advanced UAV. Aside from design, I love a good conversation and team atmosphere. Looking through my website is the best way to get an idea of what I am about.
